

There are lots of ways to be involved in the iCAN community. Whether it be for the student, individual, or company, there are numerous opportunities to volunteer. We welcome your help and so appreciate any time and effort given. All of your effort goes towards helping kids share their voice around the world!

Ask the Experts:

Hosted by Dr. Anthony Chang, MD, MBA, MPH, *Ask the Experts* is a monthly interactive online webseries where you can ask the experts on anything you want. We are always looking for guest speakers to share their wonderful expertise on topics ranging from patient rights to careers in healthcare!

Help Us Translate:

iCAN is a global organization! Therefore, we want our resources to reflect that in order to make them as accessible as possible. We would love your help translating any materials or resources on our website, from video subtitles to documents to our curriculum.

Have Your Input in our Curriculum:

Every year, iCAN develops a curriculum to provide our chapters and all kids with material designed to further their learning on items such as Telling Your Story or Understanding Clinical Research. If you or your organization has material or expertise in any of our learning modules, iCAN would love to include those in our ever evolving Curriculum.

We Welcome Ideas:

If you have ideas to collaborate beyond the three opportunities above, please contact Abby Clark at abbyclark@icanresearch.org to see how they can be put into practice. iCAN would love to work with you!
