

ECO-FRIENDLY TIPS

FOR THE SUMMIT AND BEYOND!

We are so excited to present the 2022 iCAN Summit! During this year's summit, one of our underlying goals is to be mindful of how our actions impact our environment. It is our privilege to open the floor to many youth members to share their experiences from across the globe. With that said, we want to ensure that when we do have the opportunity to collaborate, we are doing right by our planet. This year, we took the liberty of outlining some of the easy ways we can make a positive impact on our ecosystem. Below you will find links that explain what a carbon footprint is, how to calculate yours, and how you can take actions to reduce it. In your free time, feel free to check out the links and take your next steps to keeping our planet safe!

01

Turn off lights and unplug devices when not in use

02

Use reusable bags

03

Avoid the use of single-use plastic

04

Take the subway or use public transportation

05

Reduce paper use and collection (utilize the QR codes provided to access information)

06

Ensure that water faucets are off completely

07

Utilize recycling bins for any recyclable items like plastic bags, paper, cardboard and more

08

Use reusable water bottle

09

Reduce daily meat intake with each meal

10

Support local businesses and shops, including those with the goal to be eco-friendly
