 **jumohealth**. Presents the 2021 *Virtual iCAN Summit*

The International Children's Advisory Network, Inc., (iCAN) is a worldwide consortium of children's advisory groups, known as Kids Impacting Disease Through Science (KIDS) and Young Persons Advisory Groups (YPAGS). These dedicated youth member groups work in unison around the world to provide a voice for children and families in medicine, research, and innovation.

This summit encourages us to unite to create innovative ideas that support where we live, the way we look, the way we talk, and the medical conditions we may or may not have. Through our common goal of making the voices of all children around the world heard for the betterment of pediatric healthcare, we ask that everyone take this unique opportunity to really listen to and understand and empathize with all of the children who are bold enough to share their stories, opinions, and talents with us this week. Please allow only participating youth to ask questions and give comments, unless otherwise asked for by the presenter.

We will rely on the "chat feature" for submission of questions and encourage everyone to take polls through Mentimeter. English is the universal language of science, therefore this conference's primary language will be English. The Advisory Board Meeting and iCAN Chapter Leader Meeting are closed meetings.

Support iCAN

The International Children's Advisory Network, Inc., (iCAN) is a tax exempt organization as described in Section 501(c)3 of the Internal Revenue Code. With your help, iCAN is able to continue the important work of providing engagement opportunities for our youth around the world.

Save the Date
