To improve the lives of individuals and families affected by hereditary breast, ovarian, and related cancers. www.facingourrisk.org

The Patient Science and Engagement program staff want to express our sincere gratitude to all of you for spending the day with us at CDRH and allowing us to hear your perspectives.

The Patient & Caregiver Connection Community Town Hall was such a success due to your insightful comments, your shared research efforts, and your willingness to answer questions from CDRH staff. Your interactions have been the topic of conversation with many staff! We are delighted to see that you all were able to connect with one another, identify synergies, and brainstorm on potential ways to collaborate.

We look forward to our continued collaboration!

Lisa Miller Noel, PhD
